Review In Newsweek magazine, Dr. Drew Pinsky named Melody Beattie's Codependent No More one of the four essential self-help books available today, calling it the "granddaddy of addiction tomes." "Melody Beattie is an American phenomenon....She understands being overboard, which helps her throw best-selling lifelines to those still adrift." --TIME About the Author Melody Beattie is the author of numerous books about personal growth and relationships, drawing on the wisdom of Twelve Step healing, Christianity, and Eastern religions. With the publication of Codependent No More in 1986, Melody became a major voice in self-help literature and endeared herself to millions of readers striving for healthier relationships. She lives in Malibu, California. From AudioFile For twenty years Melody Beattie has been writing lucidly about codependency--the pattern of trying to control or change someone who repeatedly makes trouble for themselves and others, and who usually is manipulating and controlling others as well. The problem is often part of an addictive or depressive syndrome or both (which the author understands well from her own experience); the solution she offers is to work extra hard at clarifying each person's boundaries, keeping everyone's responsibilities separated, and becoming obsessive about looking after one's own interests in the face of demands to do otherwise. Christina Moore's elegant diction stirs in a measure of attention-getting gravitas to this weighty mixture of classic relationship advice.
