Review "Beautiful Broken Rules was a wonderfully addictive and romantic read with a bad boy hero who I promise you will fall for! There was heaps of swoon, awesome banter, and a delicious kind of angst that made my heart race and kept me flipping pages." - Aestas Book Blog "I'm not sure that I even know where to begin writing a review for this because it is truly an awesome experience. I loved everything about it - the characters, the plot, the emotion, the writing, and the author's ability to tell me a story that had me wanting this book to go on and on." - Romantic Reading Escapes Book Blog About the Author USA Today bestselling author Kimberly Lauren started out life as an avid reader. Inspired to challenge the more traditional relationship roles she came across while reading romances, she decided to write the scintillating and celebrated new adult series Broken. She currently resides in Texas with her husband, their son, and their three dogs.

Customer Reviews Most helpful customer reviews 0 of 0 people found the following review helpful. Great Read By Amazon Customer I really enjoyed this story and felt invested in all of the characters. I know an author has a special gift for writing about love and loss and heartbreak when I feel physical pain while reading certain scenes. The painful journey was worth the rewarding HEA! One

caveat, I really wish authors would do their research when writing about sports! College football games in every division are almost exclusively held on Saturdays, the regular season ends at the end of November, and championship games for division 2&3 are in December, not February. Of course, the division 1 championship is held in early January, but there is no way that Jaxon played for a division 1 team because the entire sequence of events would be implausible in that case. Luckily, the story and writing are both well executed so even this diehard college football fan could ignore the lack of collegiate football knowledge. 0 of 0 people found the following review helpful. Awesome! By Paris Hansen This is another book that won me over quickly once I got my hand on the Amazon sample. If ever there was a main character that I immediately felt a kinship with, Emerson is it. She reminds me so much of myself, it was like Kimberly Lauren had been hanging out with me during my twenties and wrote a book with me as the main character. The one difference between Emerson and myself is that Emerson grew up, let someone in and took chances and it was really nice to see. As much as I loved Emerson, I also loved Jaxon. I enjoyed adding him to my book boyfriend list and I enjoyed watching him break through Emerson's walls. The two of them together whether just studying or doing more was sweet, hot, amazing and I really couldn't get enough. Aside from the two main characters, I loved the supporting cast as well. Jaxon's twin brother Jace (yes there are two of these hot, sweet, awesome men) and Emerson's best friend Cole and her step sister Quinn. I've read rumor that there will be another book with Jace as the main character and I can't wait to revisit this world and these characters. This was such an amazing debut novel and I can't wait to read more by Kimberly Lauren. 0 of 0 people found the following review helpful. Let me tell you!!!! By Punkin8187 I absolutely... LOVED this book. A lot of the college romances can become redundant, especially when you see your 'recommended' list and select one just like the book you just finished reading... However, this was in a category of it's own. I loved the heroine who stated what she thought she was, accepted it, even joked about it. Regardless if that was a coping mechanism or not, she didn't seem surprised when someone called her out of her name, and she didn't whine about it. She accepted it and kept it moving. Jax was just.. yummy. I loved him. For the most part, he was patient, very unjudgmental. He had every right to react how he did (although it didn't need to go on for so long). The supporting characters added a lot to the story. I definitely liked Cole & Jace... A girl should always have a nice strong male friend to stand in her corner. The author wrote this so well, she drew me in to the story to where I felt both Emerson and Jaxon's pain. It reminded me of my own college days (how much I both miss them and despise them). I just... absolutely loved this story and I can't wait to read more by this author. Great, great, fantastic job! And I'm not even finished!!!! lol! See all 1099 customer reviews...
