

Book Hate To Love You By Tijan

Rule #1: No hot guys. It might sound ridiculous. I get it. It kind of was, but college was supposed to be my sanctuary. It was my place to start over. The rumors, the whispers, and the jealousy I endured through high school would all be gone. No one would know me at college. Rule #2: No drama. I'd major in pre-law. I'd make a few loyal friends. Everything would be easy-breezy. No one was going to use me or hurt me. I wouldn't let them. Rule #3: New year. New place. New me. Right? Wrong. And all because of Shay Coleman. Football captain and quarterback, he was the big guy on campus. The cocky guy in my political science class with a smirk. I hated him on sight and he was about to break all my rules. Hate To Love You is a full-length standalone. There are elements that deal with the dark side of college.

awhile since I've read a good one. This book had some angst. If you love enemies to lovers genre of books, then this will be for you. There is so much to this story that gets revealed at a really good pace and I didn't lose interest at all. There are so many interesting characters in this book besides the main ones. I will tell you this. You will fall in love with Shay Coleman. He is the ultimate book boyfriend. Kennedy is a no BS kind of heroine and I found her completely refreshing. She's not one to pull punches or take crap from anyone. And these two together are amazing! <3 0 of 0 people found the following review helpful. 5 Hate to Love you Stars. By Lisa Morgan Wow, just wow. This book was just wow, no spoilers, just my honest thoughts on this captivating book. Hate to Love you is the kind of book you find hard to put down. Once you start it you don't want to stop even when you feel like a zombie in need of sleep and boat loads of coffee lol. It captivates you from the start leaving you wanting to know what's going to go down with the two main characters and their group of friends, It was definitely fun to read. "I don't even know why I hated you." Kennedy and Shay were, no ARE the perfect couple, they work so well together even with Kennedy's craziness. Reading how they react with each other and their friendly banter had me hoping so hard for the both of them. The secondary characters were equally amazing as the mains, I love the bond they all form, it was great witnessing that happen ring. All the love and support they show for each other is incredible, their support system is solid and amazing. This book had me emotional at times, the things some of the characters have loved through and experience in this book is crazy, it make you feel so deeply for them. I enjoy a book written so descriptive like this one that it makes you feel everything. Words can't really describe how amazing it truly was. This was my first read by Tijan and I absolutely LOVED it. 0 of 0 people found the following review helpful. Trust me save your money and don't buy By Stacie As a fan it hurts me to say that this is one of Tijan's worst book. I won't go into a list of reasons why this book is terrible because there will be too many spoilers plus this is the second review I am writing on this book because Amazon blocked the first one. If you have read any of her books before then you have read this one it's the same characters with different names and the same plot twist just way worse. I would not recommend this book.
