Full-color photos on flash cards present close-ups of a model demonstrating 500 American Sign Language (ASL) signs. The meanings, brief descriptions of hand and arm motions, and related words are listed on the reverse side of each card. Correct formations of hand shapes and facial expressions are clearly shown to eliminate any possible confusion regarding intended word meanings. Where appropriate, photos include directional arrows that show hand or arm movements. Each flash card has a hole in one corner to accommodate a metal ring included with the boxed set. Users can select and fit any combination of cards they please to combine relevant words and create statements, or to review signs that they have difficulty identifying. Here is an ideal method for recognizing and memorizing American Sign Language vocabulary--a fine learning resource for all who plan to work with deaf people.

By Vanessa Brown ASL is my second language, and I find these flash cards to be very useful. While attending college, Flash cards were my main studying technique. So, these flash cards fit right into my studying / repetition habits nicely. I like how these

flash cards have a color photo on the front with a visual representation of the sign and on the back have a written representation / explanation along with related words. Flash cards are handy and can be taken on the go. 0 of 0 people found the following review helpful. I think the great! By Sam I like them there helping me.... except I don't know when Africa would come up in a everyday conversation for me but again I get to learn more words no real complaint. Good for beginners like me.... but will laminate the cards later want to carry them around. 0 of 0 people found the following review helpful. it serves better as being supplemental to other resources By Lana Kay I wish it came with a video because some things need clarification after only viewing it on paper. This will not be your sole source of ASL education, it serves better as being supplemental to other resources. Some of the cards left me confused and in desperate need of clarity.
