About the Author Elayn Martin-Gay has taught mathematics at the University of New Orleans for more than 25 years. Her numerous teaching awards include the local University Alumni Association's Award for Excellence in Teaching, and Outstanding Developmental Educator at University of New Orleans, presented by the Louisiana Association of Developmental Educators. Prior to writing textbooks, Elayn Martin-Gay developed an acclaimed series of lecture videos to support developmental mathematics students. These highly successful videos originally served as the foundation materials for her texts. Today, the videos are specific to each book in her series. She has also created Chapter Test Prep Videos to help students during their most "teachable moment"-as they prepare for a test-along with Instructor-to-Instructor videos that provide teaching tips, hints, and suggestions for every developmental mathematics course, including basic mathematics, prealgebra, beginning algebra, and intermediate algebra. Elayn is the author of 12 published textbooks and numerous multimedia interactive products, all specializing in developmental mathematics courses. She has also published series in Algebra 1, Algebra 2, and Geometry. She has participated as an author across a broad range of educational materials: textbooks, videos, tutorial software, and courseware. This offers an opportunity for multiple combinations for an integrated teaching and learning package, offering great consistency for the

student.

4/11/17 Beginning & Intermediate 6th Edition By Ashlei Mills I am very pleased with this book for the price that I received and I am so thankful I was able to have this book for math class because the book at my school was too expensive for me. And I couldn't see myself purchasing that book thankfully amazon had it for so much lower. Shipping was a breeze.  1 of 1 people found the following review helpful. Five Stars By Amazon Customer Good 0 of 0 people found the following review helpful. Three Stars By Leslee Combs Rented book for my daughter's summer math class at the local community college See all 13 customer reviews...
