By rockhavenw I listened to book one, but books two and three aren't on Audible yet, so I am READING them. I just have to stay with the story! You get to know the characters, and the story moves along at a good pace. It's not difficult to follow, and is a good read. Be warned though, you won't want to stop at book 2, and there are at least three more! See all 950 customer reviews...
