I absolutely loved the banter between Misha and Erik. The rest of the crazy cast of characters were extremely amusing; and makes me wonder if Oliver can really handle Grandma Kat. wonderful story about how Misha lost everything.... From her 8 Year Marriage to her once thriving Interior Design Business.... Everything in her life was a shambles.... After that the two are palpable and soon Misha and Erik become friends with benefits..... But Erik's dreams of having a family are squashed when his Surrogate is no longer able to complete the job..... Which Oliver gives Erik the idea that Misha would be an ideal Surrogate for him. Misha is a person who can't so no to anybody and soon finds herself the new Surrogate for Erik..... Her only condition is that they conceive naturally, which Erik finds himself giving into..... But after a month of trying.... Misha tells Erik that she has fallen in love with him and this is exactly what he wanted to avoid..... A real relationship with anyone. Things don't look good for either side and both Erik and Misha decide to part ways..... But when Misha is involved in an accident..... What are the consequences that will bring to these two? This was a very enjoyable book. I was intrigued from the start. I thought poor Misha was having a bad day when she went to clear out her office of the business that had just gone belly up but that's not even the worst part of her day. Wyatt, what a jerk but I was pretty happy when they both ran into each other at the store and he filled her in on his life currently, karma! I was a little on the fence about Erik because he never gave too much away about why he's so non-committal but was pleasantly surprised with his desire to become a father. It was interesting watching Misha and Erik's relationship develop, both not too eager to jump into a relationship due to their history of bad relationships but then Misha starts having strong feelings towards Erik and isn't sure if she can keep up the whole "friends with benefits" facade. It isn't until Misha is badly injured and in the hospital that Erik realises he feels more for her too but is unable to convey those feelings until some time later when he finally confesses what happened between him and his ex-wife. I am a little disappointed that Misha and Erik didn't talk about the long term affects of her accident though it did make sense for them to foster due to his history in the system. I love old people in these stories especially when they're open minded and a little crazy. Misha's grandma and Oliver were funny at times which breaks up the book and gives it a little bit of humour. I voluntarily reviewed an ARC of this book. See all 346 customer reviews...
