About the Author Monica Taylor is an urban teacher educator, social justice advocate, and parent activist. She is currently a professor and deputy chair of the Department of Secondary and Special Education at Montclair State University. Over the past 27 years, she has taught in an alternative middle school in NYC, worked with adolescent women Crips as they negotiated their multiple identities, parented two sons, and more recently co-lead the math/science cohort of the Newark Montclair Urban Teacher Residency. She is co-Principal Investigator of the Wipro Science Education Fellows grant which supports science teacher leaders in five districts in New Jersey. She has several publications on teaching for social justice, urban teacher education, and the self-study of teacher education practices. Her most recent book, co-written with Emily J. Klein, is *A year in the life of a third space urban teacher residency: Using inquiry to re-invent teacher education*. Her commitments to social justice manifest in all aspects of her life. She advocates for her own children as well as New Jersey students as an organizer for Save Our Schools NJ. She also deeply values the work of the many teachers with whom she is in contact.

Customer Reviews Most helpful customer reviews 2 of 2 people found the following review helpful. After reading this book, we should ask ourselves: ... By Vincent Walencik After reading this book, we should ask ourselves: " If this is what we can do for young children (creativity, discovery, exploration, engaging, social consciousness, etc.) shouldn't we do this with ALL students at every grade/age level?" Monica Taylor confirmed my belief that what we do in young children's education we should be doing throughout their education. Playhouse is really two things: "house" is a place where children go, whereas, "play" is a process of learning, experiencing and caring. Monica Taylor writes a book that parents and educators (from preK through college levels) should read. As parents, they should look for an education setting that models the practices of Playhouse for their children. As educators, they should find ways to transform their teaching environment into a Playhouse. 1 of 1 people found the following review helpful. Monica Taylor is making a huge difference in the world. Playhouse is a book for everyone who cares about the nation's children. By Denny Taylor Incredible, utterly magical, Monica Taylor is making a huge difference in the world! "Playhouse: Optimistic Stories of Real Hope for Families with Little Children is a book for every parent who is considering a preschool for their child and also for parents of children who are attending preschool. Monica writes as a mother as well as a renowned researcher and educator. She is positively inspired. This a book the nation should read as we imagine a kinder, gentler and all inclusive society. 2 of 2 people found the following review helpful. Beautifully written, insightful By Emily J. Klein Beautifully written, insightful, and truly hopeful. I love the way she weaves together the personal with narratives about progressive education. I felt like I both connected to it and learned from it! These are the kinds of books about parenting/education that I love! See all 5 customer reviews...
