The book itself is excellent: Barron makes it very easy to understand By 26zan The book itself is excellent: Barron makes it very easy to understand, and therefore, to study. However, there are a number of errors and typos. Some could be misleading because it happens on the practice question. I wonder is there a list of errors found and corrected? 1 of 1 people found the following review helpful. Best prep book 2017 By Shameem Comprehensive review to help you get a 5! It's all you need for the AP exam. Best Price and much better than the Princeton review! 1 of 1 people found the following review helpful. Great For AP Bio! By S. Chen My son's AP Biology teacher actually assigned readings from this book for class assignments. He also studied it a lot before the big test. See all 31 customer reviews...
