About the Author Sean is an assistant professor of economics at Scripps College in Claremont, California. He is the author of the international best seller "Economics for Dummies" as well as the coauthor, along with Campbell McConnell and Stanley Brue, of the world's best-selling college

economics textbook, "Economics: Principles, Problems, and Policies". An avid martial artist, Sean is a former Aikido national champion and has coached five of his students to U.S. national aikido titles. A recurring commentator on FOX Business, ABC News, and NPR, Sean holds a B.A. in economics from the University of Southern California and a Ph.D. in economics from U.C. Berkeley, where he completed his dissertation under the supervision of Nobel Laureate George Akerlof. Sean's research focuses on the often puzzling and seemingly irrational behavior of stock market investors, but he's also investigated topics as wide-ranging as the factors that affect customer tipping behavior at restaurants and why you see a lot of unionized workers only in certain industries. Stanley L. Brue did his undergraduate work at Augustana College (South Dakota) and received its Distinguished Achievement Award in 1991. He received his Ph.D. from the University of Nebraska-Lincoln. He is a professor at Pacific Lutheran University, where he has been honored as a recipient of the Burlington Northern Faculty Achievement Award. Professor Brue has also received the national Leavey Award for excellence in economic education. He has served as national president and chair of the Board of Trustees of Omicron Delta Epsilon International Economics Honorary. He is coauthor of Economic Scenes, Fifth edition (Prentice-Hall), Contemporary Labor Economics, Seventh edition, Essentials of Economics, First edition (both The McGraw-Hill Companies), and The Evolution of Economic Thought, Seventh edition (South-Western). Campbell R. McConnell earned his Ph.D. from the University of Iowa after receiving degrees from Cornell College and the University of Illinois. He taught at the University of Nebraska-Lincoln from 1953 until his retirement in 1990. He is also coauthor of Contemporary Labor Economics, Seventh edition, and Essentials of Economics, First edition (both The McGraw-Hill Companies), and has edited readers for the principles and labor economics courses. He is a recipient of both the University of Nebraska Distinguished Teaching Award and the James A. Lake Academic Freedom Award, and is past-president of the Midwest Economics Association. Professor McConnell was awarded an honorary Doctor of Laws degree from Cornell College in 1973 and received its Distinguished Achievement Award in 1994.

Customer Reviews Most helpful customer reviews 0 of 0 people found the following review helpful. Great book. I used it for my Macro class By LTH Great book. I used it for my Macro class. The book is very accurate and teaches a lot about the basics of economics. 3 of 3 people found the following review helpful. Macroeconomics By Vernon Norman This book is incredibly straightforward and easy to read and understand. Stanley Fisher and company provide excellent examples for each of the fundamental models and also show how models and theory are connected to real world policy situations. I recommend this textbook, even if you're not an economics major. 0 of 0 people found the following review helpful. Love it. By Sheila Cherizard Love it. Love it. Love it. I appreciate the online book, study materials, and quiz portion, as well. The book is informative, more instructive for degree seeking students. See all 96 customer reviews...
